AMERICAN LEGATION  
OFFICE OF THE MILITARY ATTACHE  
HABANA, CUBA.

December 23,  
1918.

Lieutenant Edward T. Newell,  
Office of the Military Intelligence Division,  
1330 F St., N.W., Washington.

Dear Newell:

I called the other day on General Puyol, who is the Quartermaster-General of the Cuban Army, and in the course of conversation told him that I was anxious to obtain a set of the insignia of the Cuban Army to present to the American Numismatic Society who were forming a complete collection of the insignia of all the armies who had united in declaring war upon the Central Empires. While I had considerable difficulty in explaining what the American Numismatic Society was (and I don't believe that it is yet altogether clear), General Puyol has promised to furnish me with the set of insignia desired and this I will send up to you in Washington as the President of the American Numismatic Society for presentation to the Society from General Puyol through myself. I hope that you will be able to acknowledge receipt of these, on the paper of the Numismatic Society) upon their arrival in Washington, and the cordial relations between the Cuban and the American Armies will be aided if you could express in your letter the appreciation of the Numismatic Society of this gift

AMERICAN LEGATION

from the Cuban General of the insignia of the army of this nation which was the first of the Latin-American countries to join the United States in its declaration of war upon Germany. (General Puyol speaks and reads English).

I hope that this insignia won't arrive too late to be placed on exhibition in the Numismatic Society, and I also hope that this letter and the insignia will reach you safely in Washington- as I see by the latest M.I.D. Bulletin that twenty-nine of the M.I.D. officers have returned to private life. However, the letter of acknowledgment will always have the signature of the President of the Numismatic Society, irrespective of whether he is an officer of the United States Army.

I see that Courtiss's stuff brought fairly good prices. Mrs. Gallatin secured for me a half dozen small vases, including I believe a couple of Corinthian ones, and landed an Egyptian Cat's Head for herself. I hope that you had luck if you were after anything. All the auction prices in New York seem to me to be terrifically high.

I wish that you would write me what is going on in the Military Intelligence Division and whether you intend to stay there for sometime. I am having a very interesting visit here in Cuba but will be glad to get back to civil life again as soon as they will let me.

Yours sincerely,

*Wm. Gallatin

January 10,  
1919.

Lieutenant Edward T. Newell,  
Office of the Military Intelligence Division,  
1330 F St., N.W., Washington.

Dear Newell:

I am enclosing, for today's pouch, the insignia of the Cuban Army which have been furnished to me by General Puyol, Quartermaster-General of the Cuban Army, in order that I might present them to the American Numismatic Society. General Puyol took great pains to gather together this complete set of the insignia, and I am sure that the Numismatic Society will appreciate his courtesy in this matter. A letter from yourself as President of the Numismatic Society acknowledging this gift would be greatly appreciated both by General Puyol and myself. The letter may be written in English, but addressed as follows:

General Eduardo Puyol,  
Jefe de la Administración Militar,  
Estado Mayor General,  
Secretaría de la Guerra y Marina.

I am sending a copy of this letter to the Director of Military Intelligence, in order that this gift -which is of a semi-official character- may be made a matter of record in Washington.

Yours truly,

Mr. Albert Gallatin,  
7 East 67th Street,  
New York.

Dear Mr. Gallatin:-

As you doubtless know, the number of our Fellows is limited to one hundred and fifty, and we can only promote our Associates to the class of Fellows when there is a death or resignation. Such a vacancy now exists, and I beg to enquire whether you would care to have me present your name to the Council as a Fellow. If you concur in this invitation, your name can be presented at the February meeting.

Very respectfully yours,

Secretary.

Dear Dr. Gallatin:-

It gives me special pleasure to inform you that in the last meeting of the Council of The American Antimonic Society you were unanimously elected a Fellow.

On your application page I state that Fellows are granted a sum of money of two hundred and fifty dollars - thereby a sum of Fellow for life, and reliance from the present or further grants.

Very respectfully yours,

Secretary.

Dear Mr. Gallatin:-

I have the honor to inform you that at the Council meeting held October 20th, 1922, you were unanimously elected a member of the Council for the unexpired term of the late Rev. Dr. James B. Nies, ending January 1927.

Very respectfully yours,

President.

Dear Mr. Gallatin:

Thank you very much for your contribution of Twenty-five Dollars toward the work of the Foreign Medals Committee. You will be interested to know that with your cheque we have already received \$110.00 from those who were present at the Annual Meeting only.

Mr. Langdon certainly deserves our support. I am very glad that there has been this evidence of appreciation of the work he has done.

Dear Mr. Gallatin:

In view of your generous contribution toward our Indian Peace medal fund, you may be interested to learn that we were very successful in securing sufficient funds to enable us to purchase every one of the twenty medals which we especially desired.

Our collection of Indian Peace medals is now a truly remarkable gathering, the like of which exists nowhere else in the world. The Society is, therefore, very appreciative of your loyal and generous assistance which has contributed so largely to the fortunate result, as outlined above.

Please allow me to add my own personal thanks to those of the Society, and believe me,

Yours very gratefully,

Dear Sir:

Herewith I am enclosing a letter from  
Mr. Hill at the British Museum. Under the cir-  
cumstances, do you want to have an order for these  
electrotypes entered? I have already asked them  
to supply plaster casts.

Very cordially yours,

Enclo.

Dear Noe

Thanks for letter. I think that it would be just as well to order the electrotypers so that we can check up with them, it will prove ~~to~~ take most of next winter to do the job + they should arrive before we finish. Also I think that they would prove a valuable addition for the Society.

I am enclosing a photograph which I just received with letter from Selman. Am writing declining the generous offer but thought that Newell might be interested in seeing + recording the item. When you are finished please return it as requested to Selman.

Sincerely,

Admt. Ballantine

7 West 87th St.,  
New York City

Dear Sir:

Your letter is at hand and as Mr. Newell came in from the country yesterday, I showed him the photographs. He says he is not interested at that figure and I am, therefore, returning them to Mr. Gilman as you request.

Thank you for the word about the British Museum electroscopes. I shall order them immediately and we shall have to wait to look to get them here on time. Mr. HILL makes a point that they must be obtained from an institution such as ours and I can, therefore, assure him that this requirement will be met.

The heat here yesterday was fairly considerable. I hope you are escaping it. Today is better.

Very truly yours,

Secretary

Dear Mr. Gallatin:

Your check received and I note that you do not desire any receipt. It was not my intention to have sent this memorandum bill to you but rather to have had them accumulated for our return and I shall do that with any others that come in. You will be glad to know that casts have been received from the British Museum, Berlin, Brussels, Cologne, and Vienna. I have opened some of the packages but have not unboxed any.

There has been word from Messrs. the British Museum, Grace of Cambridge, Dr. Macdonald of Edinburgh and the Director of the Paris Cabinet, in each case explaining that casts will be sent after an interval and explaining the various reasons for the delay. You might, therefore, count on a fairly considerable quantity of material to begin with, especially if you include in this category the illustrations on the cards which we have here. I will talk with Mr. Newell, whether he thinks it advisable to ask Hirsh to have casts made of the types which have occurred in his collection and write him for them in case he thinks there will be any use in doing so.

I hope that your summer may have been a restful one.

Respectfully yours,

Mr. Newell has asked me to let you know that a package has come from Spink containing your Kimon dekadrachm and Neapolis piece. If you wish them sent to you, will you let me know? Otherwise we shall hold them here until you claim them.

At the same time we received the single coin which Spink obtained for your sister - the Syracusan gold piece, which she badly wanted and which reached us last week.

Very sincerely yours,

On Monday I sent to you by registered mail the two coins received from Spink. This note is merely by way of record to overcome the possibility of their having gone astray.

Mr. Newell opened the package, believing that you would prefer to have him do this so that he could talk with you regarding them in case you should care to write him.

New Chinese Coins—Tinplate obtained from old kerosene cans is being used for the manufacture of coins in Kwangsi Province, South China. A recent report from Wuchow said that the deficiency of yuan and subsidiary coins is being met in part by the production of two-cent pieces from this source. The words "two cents" are impressed on the tinplate in such a way as to make these improvised coins legal tender. Brass is being employed in the making of five-cent pieces.

Dar Noe

Could you do two things for me at the Numismatic Society? In the case where I have stored the dekadrachm casts, in the lower right side where there are no shelves, there are two photographs of the Philadelphia coins, identified by the photographer's name on the back, please send them to me, I need them in nailng Sir Arthur as being wrong about dates. Then in the Seaby-Glendining catalog for July 16, could you look for me among the cards and see if the dekadrachm No. 238 is Caprotti Milan 1910, No. 424. Leo Hamburger 1910. No. 69 (same coin) or Nav. V. 1116. Egger 39, No. 98. Hirsch 26. No. 98 (same) or Nav. XII. No. 952. Hirsch 32. No. 323 (same coin) That is there are three coins that it might be. I have put in a low bid on it as it is not in good condition but the die is peculiar in that the signature is the only one that begins below the dolphin, all others have the EY in front of the dolphin. I hope that this will not trouble you too much, if it does it can keep till I come to town about the begining of August.

I hope that all the small family are thriving and do not mind the hot weather too much.

Dear Mr. Gallatin:

Our note is at hand and under separate cover I have mailed you the two photographs you need. I have looked up the coin also, No. 232 in Seaby's catalogue. It is the third of those you have listed from the Naville XII, 952, and Mirsch XXXII, 323. In the Naville sale the coin brought 1825 francs plus commission; in the Mirsch sale it commanded only 600 marks.

Please feel that I am only too glad to look up any questions such as these for you as I know the disadvantages of working at such a distance.

Thank you for your inquiries regarding my family. They have withstood the heat better than some of the ground-ups.

Very sincerely yours,

Dear Noe

Many thanks for the photographs and the information about the coin. I hope that by now there is a little peace and quiet at the Numismatic. Glad to hear that your family are well.

My dear Mr. Gallatin:

Please forgive me for failing to write you about the casts from Naples. They were transferred from the box in which they came, because of its condition, and consequently lost all evidence of their source. These coins are from Santangelo. I asked for the others which they have, but without results as you see.

The post-man has just brought Seaby's package; the decadrachm coin lot # 106. I am sure you will be pleased with it because the scars are not very noticeable, and the reverse is nicely centered. Do you want me to send it to you at your address. I am enclosing the memorandum from Seaby.

Very truly yours,

Secretary.

Enc. 1

Dear Noe

Much obliged for the letter with the information about the casts, they are an interesting lot, and, thank Heaven, no new dies. I have re grouped the whole lot and renumbered them likewise my text is about finished so the worst is over. Am delighted to learn that I landed the Glendinning coin as it is not a bad specimen and an interesting and beautiful die. I expect to be up at the Numismatic Society next Sunday to check over some casts, could you leave my coin for me with whoever is to be on duty then, also a cast should arrive for me any day from Ciani as Mrs Cammann asked him to send me one of a coin that he had, I can get this on Sunday also. Could you leave out for me the plate of Spinks Additional Medallions from the Santa Maria Hoard. Could you examine for me the reverse of two of Newells coins to see if they show that the inscription AOAA was either present or absent on the dies, the chances are that the coins will furnish no evidence. I am asking you to do this as I do not want to ask him to leave them out in the present uncertain condition of our home. They are the coins one of which has on the obverse the shell behind the head and a dot below the chin, there is a bad crack across the back of the head. The other also has on the obverse a dot below the chin and is the same die as B.M.179. I think that it is the only other dot die that he has. Thanking you again for your help

Sincerely

Albert Gallatin

P.S. Please let me know if the Nables collection is private or public? do I have to compare the casts for duplicates or are they all unrecorded or sales and from finds?

My dear Barone Pennisi:

May I have the pleasure of introducing to you Mr. Albert Gallatin, one of the Governors of the American Numismatic Society, who is very much interested in the numismatics of Sicily. I told him of the wealth of material that exists in your collection and I hope that it will prove possible for you to permit him to see our specimens of these coins.

I still keep a lively memory of the cordial reception you gave me in 1922 and of the many beautiful coins you showed me at that time.

With assurances of my cordial esteem, I beg to subscribe myself

Dear Mr. Gallatin:

Under separate cover we are sending you the cut of our seal in the largest size electro-type we have on hand. This is just over  $1\frac{1}{2}$  inches. The size smaller than this is about  $1\frac{1}{4}$  inches, and it seemed to me, of the two, the less desirable. If you do not agree with this judgment, do not hesitate to say so, and if you will telephone, we can have the other sent you without any delay. In view of your statement it seemed inadvisable to send the small one.

Dear Mr. Gallatin:

I saw the review of your book in the August "Burlington" and compared with their usual treatment of American authors you fared very well indeed. Perhaps sometime we can let drive at the complacency which characterizes their reviews or our publications.

In connection with the above, it seemed that you might care to have a translation of a review which appeared in a German periodical called "Numismatisches Literatur-Blatt". I have asked Mr. Mosser to prepare a translation for you. Here again you have every reason to feel gratified over the space given. Usually the citations are confined to half a dozen lines in which, of course, it is impossible to tell very much.
